Customer compliment:

On November 19, 2016, a passenger seated in the gate area noticed another passenger seated nearby was in distress. She went up to him and asked if he was ok. DGS Supervisor, Rochelle Birk overheard her and quickly stepped in to assist. She shook the passenger and noticed his eyes were rolled back.

Rochelle initially thought he may be having a seizure. DGS gate agent, Jenny Gil, a Certified Medical Assistant for the last 12 years observed what was going on and knew immediately she should assess the situation. The man's condition was not presenting as a seizure. He was sweating profusely. Jenny and Rochelle moved the passenger to the floor. Jenny felt for a pulse and found none. She shouted for someone to get the AED and she started performing CPR chest compressions. CSA Jackie Brown quickly got the AED and Jenny hooked it up to the passenger. After 3 sets of compressions, Jenny paused and Rochelle checked for a pulse and found a slight one. Jenny and Rochelle continued to assess and care for the passenger until the paramedics arrived. The passenger and his wife were transported to the hospital to receive further care.
